# Outline 大綱

1. Point **One** (ref)
2. Point Two
3. Point Three

$$\hat{f}(\omega) = \int_{-\infty}^{\infty} f(x)e^{-2\pi x\omega}\,dx$$

# Code Block

```python
class BST:
  def __init__(self):
    self.root = None

  def search(self, key): # iterative search
    cur = self.root
    while (cur != None):
      if key < cur.key: cur = cur.left
      else if key > cur.key: cur = cur.right
      else: return cur
```

# Flexbox Layout

- **Multi-col** layout!
- 1/3 width for text
- `imgbox` div

# Markdown Table
